Opening of the Campaign for House Offices-An Illinoisian After Col. "Ike" Hill's Position.

Special to the Indianapolis Journal.

WASHINGTON, Nov. 18 .- The campaign for the House offices opened to-day. That state the facts, there is, at present, only lukewarm interest. The members lack the incentive of a speakership contest, and many of them are warrly keeping away from the headquarters' region, so that there will be no opportunity for them to commit themselves early, in the fight. Willard's Hotel is the principal seat of headquarters. Here are the McDowell headquarters, in charge of Representatives Stone, of Pennsylvania, and Tawney, of Minnesota, W. J. Glenn, of Cuba, N. Y., who is slated in the McDowell combine for the doorkeepership, has rooms adjoining, Mr. McDowell, and Representative Hooker, of New York, is in charge. The headquarters of another candidate for Doorkeeper, Mr. W. S. Tipton, of rooms of Captain McKee, the Indiana candidate for Sergeant-at-arms. Speaker Russell, of Missouri, who is Mr. McKee's most formidable rival for the office, has not yet opened headquarters nor, indeed, have the other members of the McDowell combine. There was a disquieting rumor to-day in the Glenn camp, to the effect that it was somewhat premature to speak of Mr. Glenn as the selection of Mr. Platt, of New York, and it was added that a meeting of the New York delegation would be called later n the week to determine the attitude of the New York members toward Mr. Glenn and the rest of the combine. "Ike" Hill, the famous "whip" of the

Democrats, as essential a piece of furniture to the House as the silver mace itself, is, for the first time in his career, threatened with opposition. It seems funny that there should be dissensions among the handful of Democrats who escaped the cyclone always accorded the minority, but it is true. "Ike," who, in Republican, as in Democratic Houses, has always served the Democrats as deputy Sergeant-at-arms for the last twenty years, is popularly believed to is the Nicaragua question, the Armenian know the secret haunts of every Democrat question and the Hawaiian question, all of in Washington, and whenever there is urgent need of a Democratic round-up Mr. Hill's services to the party are simply without price. Comes there now one Mohler, of Illinois, who puts himself up as a competitor the old war-ridden nations of Europe. Milfor "Ike" position. "Ike" displays little itary drill has been introduced into eighty-fear, however. Nearly all the Democratic six colleges and a large number of high members in the next House are old members, and Mr. Hill's retentive memory of scenes and incidents attending the discovery of some of them, when their immediate presence was needed in the House, will kindle sentiments of gratitude in many breasts. A House of Representatives without old Captain Bassett. It is too early to discuss the probable outcome of the various contests for the important offices.

SECRET-SERVICE WORK.

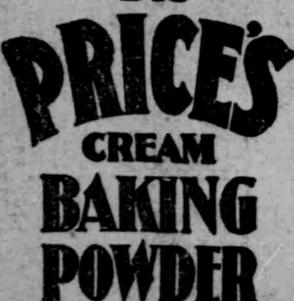

Counterfeits of the Face Value of \$5,000,000 Captured in a Year. WASHINGTON, Nov. 18 .- Chief Hazen, chief of the secret service, Treasury Department, in his annual report, shows that during the year 803 arrests were made, with few exceptions for violations of the statutes against counterfelting. One hundred and eighty-one persons were convicted, 119 others pleaded guilty, seventy-four were ladicted and are awaiting trial, fifty-one awaiting examination, sixteen were nolle producied, fifty-three were discharged by United States commissioners and eighty-four were acquitted. Altered and counterfelt notes, counterfeit coins, etc. (representative value), were captured during the year of an aggregate face value of almost 5. 000,000. There were also captured 359 copper steel and glass plates for State notes State warrants, postage stamps and world's fair diplomas; also, forty-seven dies for counterfeit coins and 217 molds for coins, besides a large quantity of crucibles, photographic outfits, machinery, etc. The number of arrests made of persons engaged in manufacturing and handling counterfeit coins shows a great increase in this branch

General Wheaton's Annual Report. WASHINGTON, Nov. 18 .- In his annual report to the Secretary of War, Brigadier General Frank Wheaton, commanding the Department of Colorado, shows that since his last report the number of posts in his copartment has been reduced from thirteen to ten. He reports a satisfactory condition of affairs among the Indians, saying that no serious disturbances have occurred since the last report and that at the time of writing, Aug. 25 last, there did not seem to be any occasion to anticipate further trouble on or off the reservations. During the year all the enlisted Indians in the deone away with. General Wheaton gives special mention to the indefatigable ef-forts of Lieutenant Hartmen, cavalry, in scouting duty. The post exchanges are be-coming more popular, adding to the con-tentment of the garrisons, improving company messes and indicating the inadvisa-bility of returning to the old post trading system. There was a marked reduction in the number of trials by court-martial and for courts during the year. General Wheaton closes his report by recommending the establishment of symnasiums and steam laundries at posts.

Old Indian Case Dismissed. -WASHINGTON, Nov. 18 .- Judge John Davis delivered the opinion of a majority of the Court of Claims to-day, dismissing the petition in the case of the New York Indians, who claimed from the government \$2,393,600 because of the alleged loss of certain lands in Kansas. In 1831 and 1832, the United States, through the treaties with the Menominee tribe in Wisconsin, set aside lands in that State for those Indians of the New York tribes who should emigrate there. Some Indians went to Wisconsin and received land, but the number was relatively small. Another treaty was, there-fore, made in 1838, which provided for a removal further west. In that treaty the government agreed to set aside lands for he tribes in what has since become the State of Kansas and to give them funds to establish themselves in their homes. Less then four hundred Indians, however, were removed, and after the lapse of sev-

WASHINGTON, Nov. 18.-The probabilities are that the national Democratic convention will be held in New York city. Leading Democrats, with Harrity, chairman of the national committee, are working energetically to this end. Harrity, after seeing President Cleveland a week ago, announced that the committee would meet here about June 2, to decide on the time and place for the convention. He thought it would be held in New York the last of June or the first days of July. It

THE MILITARY SPIRIT.

Ministers Erged to Decry It and Prench on Arbitration.

COLUMBUS, O., Nov. 18 .-- The Peace Association of Friends, of which W. G. Hubbard, of Columbus, is president, and Daniel Hill, of Richmond, Ind., is secretary, has issued a circular to all ministers of the United States asking them to preach or ternational arbitration on Peace Sunday, Dec. 15. The circular says:

"Now, while these steps show decided the other hand there are greater prepara tions for war among the nations than ever known before. There is the Venezuela difficulty in South America that may yet lead to war between us and England; there which are good questions about which to get up war. There is great effort being made by military spirits of the United States to militarize this country, aping after schools. The Legislature of New York passed a bill introducing it into the schools of the State and requiring every boy over twelve years to take the drill. Governors of other States have met together in New York city to discuss plans for introducing military drills into the schools. A kind of military craze has taken possession of some of our Americans, and they are trying to make a military camp of the United States as all Europe is to-day. With these things in view it is eminently fitting that all ministers of the Prince of Peace should preach a sermon on 'Arbitration' on Peace Sunuay.'

CHOPPED WITH A HATCHET.

Horrible Work of a Colored School Teacher in Kansas.

EMPORIA, Kan., Nov. 18.-Word has just reached here of a terrible affair at Dunlap, about thirty miles northwest of Emporia. David Henderson, a colored schoolteacher, this afternoon feloniously assaulted Dora Ray, a colored pupil fourteen years old. It was the second attempt. The matter was brought before the board, which met this evening, and through the efforts of a lawyer was smoothed over. This did not suit Samuel Ray, father of Dora, and a quarrel and fight ensued. Henderson split Ray's head with a hatchet and, in making his escape from the room, attacked Mrs. Ray, her daughter, Mrs. Mc-Fall, and Thomas Starkey, all of whom were chopped in the head with the sharp edge of the hatchet and terribly injured. Henderson is now at large and every effort is being made to capture him. So far as can be learned none of the injured has died, though all are in a critical con-

THE HIGHEST COURT

SUPREME JUSTICES.

Union Pacific Railway Company Must Maintain Its Own Telegraph Lines -They Cannot Be Leased.

WASHINGTON, Nov. 18 .- The United States Supreme Court, in an opinion by Justice Harlan to-day, held, in effect, that the Union Pacific Railroad Company had no right to make a lease practically giving the Western Union Telegraph Company an exclusive right to maintain telegraph lines along the route of the railroad company. The case came here from Nebraska and the court by its decision reversed the judgment of the Circuit Court of Appeals and affirms the judgment of the Circuit Court for the Nebraska district. The decision rendered to-day holds that the United States has a right to maintain a bill in equity to compel the Union Pacific to maintain its own lines of telegraph along its railroad routes and that the obligation imposed on the railroad company to do this was as strong as its obligation to maintain the railroad tracks.

The suit on which the decision was based was brought some years ago by Attorneygeneral Miller to enforce the provisions of the Anderson act passed in 1888, which provided that all railroad and telegraph companies to which the United States have granted any subsidy in lands or bonds shall maintain telegraph lines for all purposes and exercise by themselves alone all the telegraph franchises conferred on them and obligations assumed by them under the acts making the grants. The points decided by First-That the exclusive telegraph agree-

Company and the Western Union Telegraph Company are void. Second-That under the power reserved n the Pacific railroad charter acts it was competent for Congress to require the railroad company, by its own employes and officers, and alone, to maintain and operate telegraph lines on its main line and branches for railroad, governmental and

ments between the Union Pacific Railroad

Third-That since the passage of the act of July 24, 1866, no telegraph company accepting its provisions could acquire the exclusive right as against other telegraph companies to maintain and operate its lines Fourth-The court sustains the decree of the Circuit Court putting an end to the contracts between the Union Pacific Railroad Company and the Western Union Telegraph Company under which the latter exercised exclusively the telegraph franchises granted to the former and requiring the railway company to exercise those franthises by its own officers and employes, exclusively, and to maintain and operate on is main lines and branches telegraph lines or railroad, governmental and commercial

the same two corporations to recover moneys paid for government messages to the Western Union since 1881 sent over the lines along the Union Pacific right of way the court affirmed the judgment below in favor of the corporations. The court said that if it could be shown which messages were sent over the Union Pacific lines on the north of the railroad tracks and which over the Western Union lines on the south. it would hold that reimbursement should be made for the former messages, but since the evidence was to the effect that it was mpossible to distinguish them it would rule against the United States claim. in deciding the case of W. H. McClune, Isaac Ross and Philip Stanwood, charged with conspiracy to obstruct the transportation of the mails in connection with the Debs strike of 1891. Justice Brewer said: "A conspiracy to commit an offense is denounced as itself a separate offense and the punishment therefore fixed by the statute, and we know of no lack of power in Congress to thus deal with a conspiracy. The power exists to separate the conspiracy from the act itself and to affix distinct and ependent penalties to each." The offense complained of was committed in California, and the defendants are under sen-

tence of eight months' imprisonment, which was affirmed by to-day's decision. Tribute to Justice Jackson. WASHINGTON, Nov. 18 .- Secretary of State Olney presided at a meeting of the bar of the United States Supreme Court to-day at which appropriate action was taken respecting the death of Associate Justice Howell E. Jackson, of Tennessee. The Secretary delivered an eloquent eulogy on the life and character of the dead Justice and, on the subject of Justice Jackson's last public appearance, said: "I have resensational features. Yet there was at least one notable exception, and who ever witnessed Judge Jackson's last judicial event (the income tax decision), not merely having great national significance, but in its display of human faculties and human emotions in a state of extraordinary excitement, possessing dramatic elements rarely exhibited either within or without the halls of justice. It was much to take part in the memorable scene then enacted, whether as judge, as counsel, as party, or even as spectator. But it was reserved for Judge Jackson to identify it with the cul-mination of his honorable career and to give to his dissent something of the solem-nity of a message from beyond the tomb. Fortunate in his life, he was even more fortunate in his manner of leaving it." Assistant Attorney-general Dickinson presented the resolutions framed by the committee on resolutions appointed at a former

meeting. They declare: "Resolved, that the members of the bar sustained by the profession and the Nation in the untimely death of Mr. Justice Jackson, desire to record their esteem for the qualities which distinguished his short career on the Supreme Bench and which gave such perfect assurance that he was a worthy successor of those distinguished judges who have administered with such fidelity and ability the greatest trust ever confided by a nation. Several other speeches were made and the resolutions will be presented to the court next Monday.

MEMORIAL TO HEINE.

Objections Raised to a Fountain Because of Nude Female Mermaids.

NEW YORK, Nov. 18 .- There is a prospect that the memorial fountain to Heine, the poet, which the German organizations of the city have procured for Central Park, may be refused a place there because of the objections to its design based on grounds of morality. The objections to the monument were presented to the park board today by the National Sculpture Society, which had the decision as to the appropriateness of the work in its hands. In its protest, the society committee said: "It is the kind of monument to which so much adverse criticism has been made hitherto. The committee does not signalize this monument as more objectionable than many that now exist in prominent places in New York, but desires to emphasize its disapproval of the erection of more monuments nging to the class which this repre-

OLD SOLDIER MURDERED.

His Second Wife and Her Son Charged with Committing the Crime.

WICHITA, Kan., Nov. 18.-Henry H. Leonard, aged sixty-two years, was murdered last night, and Mrs. Leonard, his second wife, and her son, Orville, are under arrest charged with the crime. At an early hour this morning John Carter, a teamster, found the body of Leonard horribly mangled and lying in a pool of blood and half overed up in a manure pile back of the ormer's barn, on South Lawrence avenue. There were many wounds on the head, made apparently with some blunt instrument, and a knife wound on the back. A trail of blood showed that the body had been dragged along the alley for over a block. The trail was followed through the Leonard stable yard and up to the kitchen door, where Mrs. Leonard and her son were found mopping up the blood which was spattered over the floor and furniture. Both the woman and son were immediately arrested and lodged in to talk. Leonard was a second-hand dealer and an old soldier. Several months ago he secured a divorce from his first wife and married Mrs. Williamson, the woman now

Later in the day Frank M. Williamson, first husband of the woman was arrested, charged with complicity in the murder. Mrs. Leonard accuses her divorced hus-band of the killing. She says that Leonard was in bed when Williamson entered and killed him in spite of her pleadings. Williamson professes innocence and says his first wife is "putting up a job" on him.
The son will not talk. Detectives believe
Leonard was murdered for his insurance.

BLOOMERS FOR WAITERS.

The Girls Object, Though Offered Extra #1 a Week.

NEW YORK, Nov. 18.-The waiter girls in Nassau-street restaurant held a secret meeting to-day and secretly discussed this agreement, submitted for their adoption: "We, the waitresses, agree to wear a neat bloomer uniform while on duty in the res-taurant, provided the proprietor will fur-nish said suit, nicely made, free of expense to us, and pay us \$1 a week extra while wearing said bloomers." A sample suit has been made. It consists of blue Turkish trousers, blue skirt, reaching to the knees, mixed silk waist, light blue and buff chemisette, black stockings and black shoes. The restaurant proprietor said: "There is a prudish element that objects to bloomers but the same girls will visit Coney island in the summer and go in the sea dressed in knickerbockers in company with a hundred men. The uniform I have ordered is the one indorsed and worn by the Ladies' Dress Reform Club, of Denver. SUIT TO BE BROUGHT AGAINST THE AMERICAN TOBACCO COMPANY.

Permission Granted by the Attorney

General of New York-Methods of the Trust Reviewed.

SYRACUSE, N. Y., Nov. 8 .- Attorney-general Hancock to-day granted the application of C. A. Whelan & Co., of this city, for the commencement of an action to restrain the American Tobacco Company from doing business in this State and to cancel dence presented in the briefs that 90 per cent, of the cigarettes made in the United States are the product of the American Tobacco Company, and are sold under an arrangement by which the wholesale firms are called agents and allowed commissions for profits, and that if they handle goods of any other make the company refuses to consign more goods to them. Then he says: "The consolidation of the original firms and corporations, or their constituent mem-

bers, into one corporation necessarily terminates any competition between them. And the sale of goods by the aggregation having already substantial control of the marnot handle the goods of any other firm or corporation necessarily has a tendency complete and continue a monopoly of the market. Evidence of this method of transacting business would, in my judgment, be competent in the New Jersey suit to prove an original unlawful combination. If I understand the position taken by the counsel for the company, while disputing the charges that the company has adopted any such method of transacting business as I have indicated, they claim the right to impose these conditions. A corporation doing business in this State and having substantial control ought not to be permitted to impose as a general prerequisite on the purchasers of its commodities, whether designated as agents or not, that they shall obtain goods from no other source. The en-forcement of such a condition must, necessarily, operate as a restraint of trade and prevent competition. The purchaser who deals in the merchandise of the corporation enforcing restriction is prevented from selling the wares of any other manufacturer and on the other hand his customers must take the goods furnished by the party exacting obedience of the demand or go elsewhere to make their purchases. To carry such a rule to its logical sequence would er able the wealthy corporation which has ob-tained a monopoly of the market to con-tinue the monopoly and to drive out of business poorer and less fortunate competitors The purchaser, under such an agreement and contract, has really been made a party to a scheme which has a tendency to give a control of the market to the exclusion of all competitors. Such a method of transacting business is against public policy and would not receive the approval of the courts of the State, in the case of a domestic corporation. Why, then, should it be permitted in a foreign corporation? Its certificate of authority to do business in this State is granted on the understanding that business cordance with the laws and public policy of the State, and the foreign corporation that has filed the proper papers and re-ceived its certificate is accorded the same, but no greater rights than a domestic cor-

"The courts may annul the corporate existence of a domestic corporation which transacts an illegal business or impose as a condition of further existence a discontinuance of illegal methods. I have no doubt that they have sufficient jurisdiction over a foreign corporation to restrain it from transacting an illegal business or to cancel the certificate of authority granted such company. I have no sympathy with any disposition on the part of private citizens or public officials to attack the existence of a corporation because of temporary financial embarrasement or trivial and unintentional deviations from chartered powers. Applications made for the purposes of speculation to redress private grievances or to promote the interests of rival corporations are unworthy of consideration. I am of the opinion that sufficient evidence has been produced on the hearing to authorize the commencement of an action to determine whether the American Tobacco Company is not transacting its business in the State of New granted and an action may be commenced upon filing a bond sumcient in form and amount to indemnify the people against costs of suits."

> STRIKE AT NEW YORK. Eight Hundred Members of the House-

smith and Bridgemen's Union Idle. NEW YORK, Nov. 18 .- Eight hundred members of the Housesmith's and Bridgemen's Union were called out on strike todone by J. B. & J. M. Cornell and the Milliken Brothers, two of the most prominent members of the Iron League. Of the men four hundred have been employed by the Cornells on twelve buildings, and about ket on condition that the purchasers shall the same number were on eight buildings where the iron work is being done by Milliken Brothers. The demands of the strikers include a wage scale running from \$3.50 a day for foreman finishers to \$2.50 a day for blacksmith finishers. The strikers also want a recognition of their union, the employment of only union men and new regulations about Sunday work and over-

Should nonunion men be substituted for the strikers then a sympathetic strike will be ordered, and from 5,000 to 10,000 men are likely to be called out. The sympathetic strike will affect the plumbers and gas fitters, plasterers, carpenters, hoisting en-gines, steam fitters, derrick men, laborers, cement workers, stair builders, elevator constructors, painters, varnishers, framers, mosaic granite cutters and sheetiron workers. The bricklayers, who do not take part in sympathetic strikes, will be forced out in many buildings through the strike of the other trades. The State Board of Mediation and Arbi-

tration met to-day to consider the strike. Frank Larry represented the strikers. The following members of the board were present: William Purcell, Rochester; ex-Judge Robertson, of Troy; M. J. Feney. of Brooklyn, and Secretary Charles Madden.

Topics Discussed by the K. of L. WASHINGTON, Nov. 18 .- The question of minority representation was discussed by the Knights of Labor to-day. The restriction against saloon men and barkeepers was also discussed. The laws of the order are so strict that waiters who occasionally serve drinks with meals are subject to the restriction. This will be changed in favor of walters or others who act as barkeepwill be such as may be carried on by a com-pany incorporated under our laws and in ac-ers only temporarily. There is no purpose to loosen the rules of the order against saloon men who are permanently in the business, but only to liberalize it in favor of persons compelled by circumstances to engage in it temporarily. An important resolution has been read and referred to the resolutions committee demanding that the members of the Supreme Court shall be elected by popular vote. The resolution meets with general favor, and is likely to be acted on affirmatively. The sentiment in the K. of L. is that the executive and judicial branches should be entirely sep arate, and that the right of the President to appoint Supreme Judges gives the executive practical control of the judiciary. The feeling is said to be due to the granting of several injunctions in strike cases by the judiciary, and also to the alleged unfavorable course of the courts on laws relating

to labor, as in the decision against the in-An amendment to the constitution was passed making any person over sixteen years of age eligible for membership in the order unless he be a manufacturer or dealer in wines, liquors or beers. An addition to the amendment also debars from membership lawyers, bankers, stock brokers and York in an unlawful manner, in restraint of gamblers. Another amendment was passed trade and to prohibit it from further trans- allowing any five members of good standing in a local assembly that has lapsed or the transaction of business looking to the revival of the assembly. The General Assembly decided to reduce the charter fee from \$5 to \$3, the local assembly to pay

the expenses of the organizer.

Don't Want the Bible Read. CHICAGO, Nov. 18 .- Bible reading in the public schools was the subject of a short but animated controversy at the meeting of the Chicago Labor Congress last evening. Delegate F. G. Hopps, secretary of the congress, introduced a resolution protesting against the recently suggested in-novation on the ground that the schools should be devoted to the teaching of economic principles and things of practical life, leaving the matters of religion to the choice of the individual. He urged, instead of "select passages from the Bible," the School Board should cause "choice selections from writers on trade unionism' to be read to the pupils. The resolution was adopted with little opposition.

A Deceiver of Women. ROCHESTER, N. Y., Nov. 18 .- William P. Burdick, the young man who is charged with bigamy by marrying Marjorie S. Rhoden in this city Oct. 14, of this year, while he had a wife living, was held for the grand jury to-day. Burdick was taken to jail until bail can be fixed. Burdick's examination was begun last Thursday and the testimony of his two wives, both pretty women, was taken at that time. He was married to Grace A. Spencer, at Lakeville, Aug. 7, 1892, and recently induced Miss Rhoden to come to this city from Stockton, Cal., to marry him.
